

## Bicycle and Pedestrian Safety Program Pre-Quiz

Thank you for your participation in WABA's Bicycle and Pedestrian Safety Program.

Each year WABA receives funding through the DC and MD Departments of Transportation to fund this program. In order to measure the effectiveness of this program and ensure funding in future years we need to show that children are learning from the program. Pre and post-quizzing is an essential part of the evaluation process.

### Quiz Instructions:

1. Photocopy enough pages for the number of classes you are planning to teach bicycle and pedestrian safety to.
2. Verbally ask your class the questions and record their responses in the Pre-Quiz columns.
3. Fax your forms to WABA (see contact information below) and keep them to complete after the program. Once we have your pre-quizzes we will contact you and confirm the dates for the program. The program is in high demand so we cannot confirm your schedule for the equipment until we have your pre-quizzes.
4. Once you have completed classes, ask the same classes the same questions, fill in the last columns and fax to WABA again with your pre- and post-inventory (these are combined on one form).

We look forward to working with you and your students! Please feel free to contact us with any questions!
