Capital Trails Network

The Capital Trails Coalition seeks to create a world-class network of multi-use trails that are equitably distributed throughout the Washington DC region. The Coalition is in the process of finding funding to complete 800 miles of planned trails into pavement that people can walk and bike on. Trails are an economic boost for local economies and improve the health and well-being of communities. Would you support Prince George's County, alongside DC and VA, dedicating funding to complete our regional trail network?

Yes No

Further explain how you would advocate for the completion of the County's portion of the Trail Network? *Our health is our wealth! I would advocate under our health initiatives, along with our walkable communities initiatives.*

Protected Bike Lanes

Bike lanes would reward County residents who choose to travel in ways that conserve land, energy, and fuel and they also fight climate change. Expanding the number of protected bike lane miles in the County would make bicycling safer, easier and more popular and also reduces fuel use.

Do you support increasing funding to expand biking infrastructure in your District?

Yes No

How will you ensure the expansion of off-street paths and protected bike lanes on major thoroughfares and connecting streets that are comfortable for people of all ages and abilities? *Although I support diversity of choices for our residence we must address the issue of safety on street, and drivers speeding and driving reckless. Expansion of lightening along our roads and more road and bike safety devices. I was recently hit by a moving vehicle on March 7th. I am thankful to be able to testify on my tragic experience as a pedestrian.*

Vision Zero

Do you support implementation of the full Prince George's County Vision Zero Action Plan, and commit to making sure all action items are planned and implemented?

Yes No

Do you support expanding funding for the infrastructure changes needed to slow traffic on your community's streets, and improve crosswalks and intersections to make them safer for people who are walking and using mobility assistive devices?

Yes No

Engagement

How will you work with your constituents to develop consensus infrastructure designs for your District that balances the community's desire for walkability, connectivity, open space and resiliency with vehicular traffic? *Keep them educated engaged and informed. Also connect with hands on experiences.*

Upcoming Term

If elected, what will be your signature legislation or priority that you will champion to improve traffic safety during your upcoming term? For better Pedestrian and Bike riders safety devices. Traffic slowing devices, better night lightening and even street lines that slightly glow for better night visibility. The legislation would be the kid in me who is asking every big brother or sister to help me feel safe as we thrive for safer streets and community.

Town-Hall with WABA members

Would you be willing to meet with Prince George's County WABA members in a town hall setting to discuss pressing transportation issues this year?
