

Candidate Name (Affiliation): **James R. Walkinshaw (D)**

District: **Braddock**

1. Improving Public Transit

Public transit is the backbone of a sustainable, equitable transportation system and a thriving economy, and Fairfax County has admirable plans to expand its bus rapid transit (BRT) network to ensure fast, frequent, and reliable service for residents. While public transit ridership on some systems has been hit by the pandemic with reduced commute trips due to increased teleworking, transit remains key for essential workers, and for supporting compact, walkable communities.

Do you support increased funding for public transit to address budget shortfalls and make improvements to better serve riders?

Candidate's Response: **Yes**

What is your experience riding public transit? What ideas do you have to improve public transit in Fairfax County?

Candidate's Response:

I currently Chair the Virginia Railway Express Operations Board and have been a VRE rider for more than a decade. Through Transforming Rail in Virginia, we are working to expand VRE ridership by adding evening and weekend service and attracting new riders to the system. We also need to continue to expand South-North Connector bus routes to serve residents commuting from Southern and Central Fairfax to Tysons and Reston.

2. Active Transportation Funding

The ActiveFairfax Transportation Plan – the County's most significant overhaul of its bicycle, pedestrian, and trails plans – is expected to be finalized this year. The plan's recommendations address critical safety needs for residents who already walk and bike and also make improvements to allow more residents to walk and bike conveniently and safely for daily needs. Realizing the Plan's vision will require substantial, dedicated, and consistent funding.

Would you support Fairfax committing dedicated annual funding to support the ActiveFairfax Transportation Plan, even if that meant potentially delaying road expansion and interchange projects?

Candidate's Response: **Yes**

What is your personal experience dealing with or advocating for pedestrian or bicyclist safety issues?

Candidate's Response:

I spend much of time working with community members to address pedestrian and bicycle safety issues in the Braddock District and supported the Board's commitment of \$100 million to make much-needed improvements across Fairfax County. Recently, I worked with the community, FCDOT, and VDOT to improve a crosswalk used by families walking to Irving Middle School. I am also working to install RRFBs at key locations in the Braddock District.

3. Low-Stress Bike Network

Fairfax County has committed to reducing the amount people have to drive and associated transportation-related carbon emissions. The County's climate plan calls for meeting a goal of 30% non-auto commuting trips by 2030. To make this shift, the County will need robust, accessible alternatives and bicycling is an ideal, low-cost, carbon-free alternative. But that mode shift requires dedicated infrastructure including an expanded network of trails and comfortable, protected, low-stress bicycle facilities – not just painted bike lanes or sharrows – to make bicycling meaningfully safer, more appealing, and more accessible and often requires roadway redesign that reduces parking and/or vehicle lanes.

Compared to the current prioritization, do you think greater priority should be given to the needs of bicyclists and pedestrians in the County's roadway designs?

Candidate's Response: **Yes**

How would you ensure that people of all ages and abilities have robust active transportation access to and along the County's major and most important thoroughfares and connecting streets?

Candidate's Response:

Despite some opposition in the community, I have advocated for the inclusion of shared use paths as part of the Braddock Road Multimodal Improvement Project. We can no longer design roads without giving careful consideration to the needs of bicyclists of all ages and skill levels.

4. Safe Streets for All

On May 10, 2022, the Fairfax County Board of Supervisors unanimously endorsed the Safe Streets for All Program, a comprehensive initiative to address systemic transportation safety issues for people walking, biking, taking transit, and driving. Included in the recommendations is a call for roadway infrastructure changes to slow traffic on our community's streets. Unfortunately, the County has not yet dedicated staff or funding to begin executing the program. At the same time, Fairfax County experienced a troubling uptick in traffic-related pedestrian fatalities in 2022.

Do you support the full implementation of the Safe Streets for All Program in Fairfax County, including changes to roadway design guidelines and an expanded automated speed enforcement program?

Candidate's Response: **Yes**

What proven traffic safety improvement policies, programs, and/or technologies would you like to see implemented in your district and throughout the County? Given the lack of clarity around who has the legal and budgetary authority to make roadway safety improvements stemming from state ownership of County roads, what steps would you propose to ensure that these roadway safety improvements are implemented?

Candidate's Response:

As Chairman of our Legislative Committee, I have actively worked in Richmond to secure greater local authority around road design and speed limits. I would like to see local authority to reduce speed limits in certain areas and the expansion of automated enforcement options.

5. Safe Routes to School

Trips to and from schools are among the best opportunities to reduce car trips in Fairfax County. A robust Safe Routes to School (SRTS) program can play a critical role in encouraging more families to walk and bicycle to school, which has been shown to increase confidence and sense

of independence among children while also reducing pickup/dropoff vehicle congestion and associated carbon emissions. Unfortunately, the County's SRTS program includes just one dedicated staff position for a public school system that serves 185,000 students.

Would you support expanding the Safe Routes to School program, including additional staff capacity, to get more kids to walk and bike to school?

Candidate's Response: Yes

What other policies or budget items will you pursue to upgrade transportation infrastructure so kids can safely walk and bike to school?

Candidate's Response:

I would support dedicated state and local funding to make it safer and easier for children to walk or bike to schools in Fairfax County.
